

## KE-1010X POUCH LOADER

# Chain Sachet High Speed Folding & Casing

KE-1010X

with Case Changer Unit

### Features

- High speed casing at **Max. 40 meters / minute**
- Easy operation by clear view **5.7" color touch panel**
- **30 types memory-bank** corresponds to wide product types
- Upgraded from previous model KE-1000V;
  - Pitch feed unit operation noise reduced (avg. -13.5db)
  - Lower equipment height (-80mm)
  - Applicable case (carton) size enlarged (D: 350mm → 400mm, H: 310mm → 400mm)
- Various options
  - Pull-Up Roller for heavy work materials
  - Push Unit for more uniformed casing
  - Cutter Unit & Case Changer for upgraded automation

## Basic Specs

|                    |                                                                                                                                                                |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Casing Capacity    | Max. 40 meters / minute * Note 1                                                                                                                               |
